## WORK HISTORY

---

### Senior Full Stack Developer

(November 2021 - Present)

**GloE Solutions**, Kerala, India

- Enhanced organisational efficiency by developing a scalable Human Resource and Project Management CRM (SaaS) using PHP, Laravel, MySQL, Bootstrap, and Vue.js.
- Developed RESTful APIs using PHP and Laravel to enable seamless integration with various platforms.
- Developed and deployed PHP and Laravel applications using Docker and Kubernetes (Amazon EKS) to ensure high availability and scalability on AWS.
- Mentored junior developers, conducted code reviews to ensure code quality and adherence to best practices, and provided constructive feedback.
- Led requirement analysis, documentation, and project timeline estimation, while researching industry trends and emerging technologies to support informed development decisions.
- PHP, MySQL, Laravel, HTML5, CSS3, JavaScript, TypeScript, Vue.js, Pinia, Vite, RESTful APIs, Git, Docker, Kubernetes, AWS, GitHub Actions, Slack, Microsoft Teams, Agile methodologies

### Senior Software Engineer

(June 2019 - October 2021)

**Yuhiro Technologies**, Kerala, India

- Migrated procedural PHP projects to an object-oriented architecture using Laravel and Vue.js. Implemented and maintained unit, integration, and functional tests with PHPUnit to ensure high code quality.
- Improved performance and resolved 99% of full-text search issues reported by customers by integrating Elasticsearch and Algolia search functionalities into PHP projects.
- Integrated DHL and DPD third-party parcel service APIs into the e-commerce application, automating order processing, label creation, and tracking, saving 30 hours per week through efficient batch processing.
- PHP, MySQL, Laravel, HTML5, CSS3, JavaScript, TypeScript, Vue.js, Vuex, RESTful APIs, Git, Docker, Kubernetes, AWS, ES6, jQuery, AJAX, XML, JSON, SASS, LESS, Linux Shell Commands

**Senior Software Engineer**  
**Netrix Worldwide**, Kerala, India

(June 2017 - June 2019)

- Designed and developed a robust HR and leave management system using the PHP CodeIgniter framework and Vanilla JavaScript.
- Implemented seamless integration of PayPal, Stripe, and Klarna payment gateways into PHP projects, ensuring smooth and secure transaction processing.
- PHP, MySQL, CodeIgniter, HTML5, CSS3, JavaScript, PayPal, Stripe, Klarna, RESTful APIs, Git

**Senior Software Engineer**  
**Ubiqz Infotech**, Kerala, India

(July 2015 - June 2017)

- Managed end-to-end development, maintenance, and customisation of a hotel booking system (SaaS), tailoring it to meet unique customer requirements.

**Programmer Analyst**  
**Hi-tech Digital Solutions**, Kerala, India

(March 2013 - July 2015)

- Developed an automated system using PHP cURL to retrieve competitor product prices and dynamically update pricing, resulting in a 35% increase in sales.

**Software Programmer**  
**Caxita Tech Solutions Pvt Ltd**, Kerala, India

(December 2011 - March 2013)

- Built a PHP CodeIgniter CRM for Hyundai, automating inquiries, bookings, and parts management to enhance operational efficiency and customer service.

**Software Programmer**  
**Clariya Softech Pvt Ltd**, Kerala, India

(November 2009 - October 2011)

- Developed custom WordPress plugins and themes using manual coding and Visual Composer (Divi).

## EDUCATION

---

Master of Computer Applications (MCA)  
University Of Kerala

(November 2006 - November 2009)

Bachelor of Science (B.Sc) in Mathematics  
University Of Kerala

(June 2003 - July 2006)
